List of Major Transnational Corporations in Selected African Countries

Liste de Principales Sociétés Transnationales dans Certains Pays Africains Sélectionnés

INTRODUCTION

This paper provides a partial list of major transnational corporations in selected African countries based on information available at the Economic Commission for Africa at the time of publication. The list is not comprehensive and does not cover all African countries and all transnational corporations that operate in a particular country.

For purposes of presentation the host African countries are grouped into areas served by the Tangiers, Lusaka, Gisenyi, Yaounde and Niamey Multinational Programming and Operational Centres (MULPOCs).

Though South Africa is not considered as part of developing Africa, there are Transnational Corporations that have their corporate headquarters in South Africa but also operate in some African countries and these are listed together with transnational corporations that come outside of Africa. Thus South Africa serves both as home and host country for certain transnational corporations.

Cette étude donne une liste partielle de principales sociétés transnationales situées dans quelques pays africains sélectionnés et se base sur des informations disponibles à la Commission Economique pour l'Afrique au moment de la publication. La liste n'est pas exhaustive et ne couvre pas tous les pays africains et toutes les sociétés transnationales qui opèrent dans un pays particulier.

Dans le but d'une présentation aisée, les pays africains sont groupés en sous - régions relevant des MULPOCs de Tanger, Lusaka, Gisenyi, Yaoundé et Niamey.

Comme l'Afrique du Sud n'est pas considérée comme faisant partie de l'Afrique en développement, les sociétés transnationales qui y posèdent leurs maisons-mères mais opèrent aussi dans certains pays africains sont cataloguées avec les sociétés transnationales venant de l'extérieur de l'Afrique. De cette façon, l'Afrique du Sud sert donc à la fois de pays d'origine et de pays hôte pour certaines sociétés transnationales.
